

Year 3 Enrichment Homework

Make Popcorn! Ask an adult to help you! Have a look in your local supermarket for some popcorn kernels. Pop them in a dry saucepan and put them on the hob. What happens to the kernels? How do they change? Sprinkle on your favourite flavouring (cinnamon and sugar is lovely!), snuggle up under a blanket and watch a film with your tasty snack.	Go Swimming! Enjoy a fun day out at your local swimming centre with your adult. Don't forget to take your towel to dry off afterwards (and armbands if you need them). 	Make a pizza Follow the instructions and measurements to make your own pizza dough. Once you have made and cooked your pizza, show your adults what you have learnt about fractions to make sure it is divided fairly! 	Young V&A Museum Head to the young V&A museum and spend the day exploring the different exhibits. Have fun in a world of imagination, play and design. 	Create a picture collage of your weekend. You could do this either on paper or digitally. Take photographs of different things that you do and see and then combine them to make a picture collage. 	Belonging to a Community In our community, we have people who have originated from all over the world. What signs can you spot in your local area for the different nationalities of people that live there? 
--	---	--	--	--	--

Visit the British Museum, Room 41.

What objects can you see from the Sutton Hoo ship that was buried?

Can you spot a helmet? A sword? A belt buckle?

Visit the Southbank Centre and take part in a workshop or take a look online and watch a live stream of an author reading their book.

There's usually always something fun going on outside too.

Can you make your own musical instrument using recycled materials at home?

Bring it in to show your teacher and your friends.

Battersea Park codebreaking walk.

Download the Tramble app and head to Battersea park. Can you crack the code in the park in under 60 minutes?

Once you have done that, you could go and visit the animals at the zoo?

Can you go under the Thames?

In Greenwich and Woolwich, there are foot tunnels that go under the river Thames.

Ask an adult to go with you for a walk under the Thames. How many steps is it to go down?

Pollinator Spotter

In your local park / gardens, how many different pollinators can you spot?
