

Over the half term week do **take a break** from Satchel and online learning and get busy with members of your family making the best use of what we have got around us. Remember to take lots of photographs. As we know the weather can sometimes be unpredictable, there are also some things you can do at home on a wet day.

You will need to be extremely creative collecting **evidence** of your exploits and sharing them with us at school. If you have a Twitter account, follow us **@StMaryMagPri** or **@ChristChurch090** and tweet using the hashtag **#KoinoniaFederationFeb2021halftermChallenge#** another option is to send your entries through to admin.

- **Do something outdoors** – picnic in the park, use facilities in playground, collect things when on a walk to create a picture. What about some land art – see attached information about a Federation challenge.
- **Watch a film** – could be one of the Disney ones. Act out your favourite scene or dress up as one of the characters. 
- **Create a den indoors** – using pillows, cushions and some quilts. It could be a reading den; you **might** need a torchlight to see the words on the page.
- **Do some cooking with an adult** – a love bake for valentine's day, maybe. You can list the ingredients used, write instructions or do a picture guide for someone else to follow the recipe.
- **Play a board game with a family member.** A great idea would be to make/design a **new** board game. Try completing a jigsaw puzzle? 
- **Play a sport or do some exercise** – a 20 minute walk each day maybe or 50 star jumps or skips?
