

Koinonia Federation Lockdown Art Challenge

Some arty examples

Land Artists usually use **objects of nature** to make art such as **pebbles, leaves, sticks** but more recently have also been using plastic found on the ground or in the sea to make art as a comment on the state of our environment.

Land artists often use the spiral or the circle to represent life and unity.

You can create your Art in your garden, on your balcony, in the street, in the park, even in your home

When you go outside for daily exercise collect some leaves, sticks and stones, sand, grass, seeds, conkers, flowers, weeds, pieces of ice, anything you can find!

You can assemble and photograph them at home if you are unable to do this outside

Challenge : Create your very own art during lockdown!

Rules: It must be a circle as big or small as you want, to represent the unity and coming together of the Koinonia Federation.

What you need to know:

1. When photographing your work make sure you include the whole circle in your image
2. Tweet to **@StMaryMagPri** or **@ChristChurch090** using the hashtag **#KoinoniaFederationLockdownartChallenge#**
