This policy and content is the property of Koinonia Federation and no part of it may be used or reproduced in part or otherwise without the permission of the Headteacher. The information contained herein is to be considered to be sensitive and should be kept confidential at all times.

1. STATEMENT OF INTENT

Koinonia Federation consists of St Mary Magdalene and Christ Church C of E primary and secondary schools (the "**Federation**") collects and uses Personal Data about its staff members (including governors), pupils, parents and other individuals who come into contact with the Federation in accordance with its legal obligations under the General Data Protection Regulation ("**GDPR**") and the Data Protection Act 2018 ("**DPA**"). Personal Data is gathered in order to enable the Federation to provide education and other associated functions. The Federation will ensure that any Personal Data is processed fairly as directed by the principles of data protection and as guided by best practice from the Information Commissioner's Office ("**ICO**").

The Federation is the Data Controller for the purpose of the GDPR and is registered with the ICO detailing the information held and its use.

2. FAIR PROCESSING NOTICES

Schools also have a duty to issue a Fair Processing Notice ("**FPN**") to all pupils/parents. The FPN summarises the information held on pupils/parents; why such information is held; how information is processed; the rights of pupils/parents in relation to information (such as the ability to withdraw consent); the other parties to whom information may be passed on; and the period for which information will be held for.

3. PURPOSE

The purpose of this policy is to ensure that Personal Data is dealt with by the Federation correctly and securely and that the Federation complies with data protection laws and professional regulations (including but not limited to the GDPR and DPA) and protects the data rights of its staff members (including governors), pupils, parents and other individuals who come to contact with the Federation.

4. SCOPE

This policy will apply to information regardless of the way it is collected, used, recorded, stored and destroyed, and will apply to information contained in any form, including for example email, spoken information, or handwritten or printed documents.

This policy covers all staff members (at all levels and grades) involved with the collection, processing and disclosure of Personal Data and all staff members (including governors) will be aware of their duties and responsibilities by adhering to this policy and the Federation will offer continued training to assist with GDPR and DPA compliance.

This policy will be reviewed as it is deemed appropriate, but no less frequently than every year to ensure relevance, compliance and best practice. The policy review will be undertaken by (the "**Headteacher**") or a nominated representative.

5. DEFINITIONS

Data Controller	Is a person who (either alone or jointly or in common with other persons) determines the purposes for which and the manner in which any personal data are, or are to be, processed.
Data Subject	Is an individual who is the subject of Personal Data.
Personal Data	Is data which relate to a living individual who can be identified (a) from those data; or (b) from those data and other information which is in the possession of, or is likely to come into the possession of, the Data Controller.
Special Categories of Personal Data	Is information concerning the Data Subject's racial or ethnic origin, political opinions, religious beliefs, trade union activities, physical or mental health, sexual life, or details of criminal offences.

6. PRINCIPLES

The GDPR is an EU regulation intending to combine and strengthen data protection within the European Union ("EU"). The GDPR covers all countries that hold or process Personal Data belonging to EU citizens, whether they are located in the EU or not. The GDPR establishes seven enforceable principles that must be adhered to all times when processing Personal Data, as follows:

Seven Principles	
Lawfulness, fairness and transparency	Personal Data shall be processed lawfully, fairly and in a transparent manner in relation to the Data Subject (being individuals).
Purpose limitation	Personal Data shall be collected to specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes. More information regarding legitimate purposes for further processing can be found in Article 89(1).
Data minimisation	Personal Data shall be adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed.
Accuracy	Personal Data shall be accurate and, where necessary, kept up to date. Every reasonable step must be taken to ensure that inaccurate data (having regard to the purposes for which they are processed) is erased or rectified without delay.
Storage limitation	Personal Data shall be kept in a form which permits identification of the Data Subjects (for no longer than is necessary for the purposes for which the Personal Data are processed), and Personal Data may be kept for no longer periods than is necessary for the purposes for which the personal data is being processed. More information regarding when personal information is permitted to be stored beyond this can be found in Article 89(1).
Integrity and confidentiality	Personal Data shall be processed in a manner that ensures appropriate security of the Personal Data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.
Accountability	The Data Controller shall be responsible for, and be able to demonstrate compliance with, the GDPR.

7. GENERAL STATEMENT

The Federation is committed to maintaining the above seven principles at all times. Therefore, the Federation will:

- Inform individuals why the information is being collected when it is collected;
- Inform individuals when their information is shared, and why and with whom the information was shared with;
- Check the quality and the accuracy of the information it holds;
- Ensure that information is not retained for longer periods than is necessary;
- Ensure that when obsolete information is destroyed that it is done so appropriately and securely;
- Ensure that clear and robust safeguards are in place to protect Personal Data from loss, theft and unauthorised disclosure, irrespective of the format in which it is recorded;
- Share information with others only when it is legally appropriate to do so;

- Set out procedures to ensure compliance with the duty to respond to requests for access to Personal Data, known as Subject Access Requests; and
- Ensure that staff members are aware of and understand the Federation policies and procedures.

8. NEW RIGHTS POST GDPR

Data Subject Rights	
Right to be informed	Individuals have the right to be informed about the collection of their data, including the purpose of processing, retention periods, and who their data will be shared with.
Right of access	Individuals have the right to obtain confirmation that their personal data is being processed, and the purpose of the processing, as well as a copy of their personal data and other supplementary information. If requested, the data must be available in a commonly used electronic format.
Right to rectification	If the personal data held is inaccurate or incomplete the individual has the right to ask for the information to be corrected.
Right to erasure	Individuals have the right to have their personal data erased under certain circumstances; such as if it is no longer relevant to the purpose of processing or the data subject is withdrawing consent.
Right to restrict processing	Individuals have the right to request that processing of their personal data is restricted or suppressed under certain circumstances, such as if they are contesting the accuracy of information or it has been processed unlawfully.
Right data portability	Individuals have the right to obtain and reuse their personal data for their own purposes, and are able to transfer their personal data electronically in a safe and secure way without hindrance to usability.
Right to object	Individuals have the right to object to profiling, processing based on legitimate interests, direct marketing, and processing for purposes of research and statistics.
Automated decision making and profiling	Individuals have the right to challenge decisions made by automated means or profiling.

9. SUBJECT ACCESS REQUESTS ("SAR")

Right of access to information

Under the GDPR any individual has the right to make a request access the Personal Data held about them, so that individuals are aware of such information, why such information is held about them and to verify the lawfulness of the processing of such information.

Actioning a SAR

Below is the process detailing how the Federation will handle a SAR:

1. Request:: Requests to access Personal Data must be made in writing using the SAR Pro Forma and the more information that is provided on the SAR Pro Forma, the easier it will be for the Federation to locate the relevant Personal Data. The SAR Pro Forma can be submitted by post, addressed or electronically for the attention of the Federation's Data Protection Lead details of which are found in the contact section 12.
2. Further Information: If the initial request for SAR does not clearly identify the information required, then further enquiries will be made by the Federation.
3. Proof of Identity: The identity of the requestor for SAR must be established before disclosure of any information is made by the Federation, and checks will also be carried out by the Federation regarding proof of relationship to the pupil. The requestor for SAR can evidence their identity by submitting the following:
 - Passport;
 - Driving licence;
 - Utility bills with the current address;
 - Birth/ marriage certificate;
 - P45/P60; or
 - Credit card or mortgage statement.

This list is not an exhaustive list.

4. Children and SAR: Any individual has the right of access to information held about them and children have the same rights as adults over their Personal Data in relation to right to access their Personal Data. However, with children, this right is dependent upon their capacity to understand (normally aged [13] or above) and the nature of the request. Personal Data about a child belongs to that child, and not the child's parents. This is the case even where a child is too young to understand the implications of SAR's. For a parent to make a subject access request, the child must either be unable to understand their rights and the implications of a SAR, or have given their consent. Therefore, most SAR's from parents of pupils at this School will not be granted without the express permission of the pupil. Parents at this School do not have an automatic right to access their child's educational record. The Federation will decide on a case-by-case basis whether to grant such requests, bearing in mind guidance issued from time to time from the ICO.
5. Charges: The Federation will provide the information requested free of charge.
6. Excessive/unfounded Requests: The Federation may charge a reasonable fee if the request for information is manifestly excessive or unfounded, particularly if the request is repetitive. The fee charged will be determined on the basis of the administrative costs of complying with the request and therefore the level of the fee will vary depending on the remit of the request and the administrative costs incurred. The Federation will need to provide evidence to the requestor on how the request for information is manifestly excessive or unfounded.
7. Unwarranted Requests: The Federation may refuse to respond to unwarranted requests for information. The Federation will explain the reason of refusal to the requestor, inform the requestor of their right to complain to the supervisory authority and to a judicial remedy without undue delay and at least within a month.
8. Electronic requests: The right to request information may be submitted electronically to the Federation's Data Protection Lead using the SAR Pro Forma form, unless otherwise requested by the individual. Also, the requestor may make a SAR using any Facebook page or Twitter account that the Federation has, other social-media sites to which the Federation subscribes, or via third party websites. The Federation cannot insist on the use of a particular means of delivery for a SAR.
9. Time to Respond: The response time for SAR for all or part of the pupil's educational record, once officially received, is fifteen (15) school days. If the SAR does not relate to the pupil's educational record, the

Federation will respond to a SAR without undue delay and in any event within one (1) month of receipt of the request. The Federation may extend the deadline to respond to a SAR by up to two (2) months (so up to three (3) months in total) where the SAR is particularly complex or numerous and if this is the case the Federation will contact the requestor within one (1) month of making the request and inform he or she why an extension is necessary.

10. Right to Withhold Personal Data: The Federation has the right to withhold the disclosure of Personal Data upon a SAR if disclosure would adversely affect the rights and freedoms of others.
11. The GDPR allows exemptions as to the provision of some information; therefore all information subject to a SAR will be reviewed prior to disclosure.
12. Third party information is that which has been provided by another, such as the Police, Local Authority, Health Care professional or another school. Before disclosing third party information consent should normally be obtained. There is still a need to adhere to the 40 day statutory timescale.
13. Any information which may cause serious harm to the physical or mental health or emotional condition of the pupil or another should not be disclosed, nor should information that would reveal that the pupil is at risk of abuse, or information relating to court proceedings.
14. Where redaction (information blacked out/removed) has taken place then a full copy of the information provided should be retained in order to establish, if a complaint is made, what was redacted and why.
15. Information disclosed should be clear, thus any codes or technical terms will need to be clarified and explained. If information contained within the disclosure is difficult to read or illegible, then such information should be retyped.
16. Information can be provided at the Federation with a member of staff on hand to help and explain matters if requested, or provided at a face to face handover. The views of the applicant should be taken into account when considering the method of delivery. If postal systems have to be used then registered/recorded mail must be used.

10. COMPLAINTS

Complaints about the above procedures should be made to the Chair of the Governing Body who will decide whether it is appropriate for the complaint to be dealt with in accordance with the Federation's complaint procedure.

Complaints which are not appropriate to be dealt with through the Federation's complaint procedure can be dealt with by the Information Commissioner. Contact details of both will be provided with the disclosure information.

11. DATA BREACH MANAGEMENT PROCEDURE

Appropriate measures are taken against unauthorised or unlawful processing and against accidental loss, destruction of or damage to personal data by the school. This procedure will be followed in the event of a data security breach, examples of which are:

- Loss or theft of data or equipment on which data is stored on school premises or outside
- Inappropriate access controls allowing unauthorised use
- Equipment failure
- Human error - correspondence with personal data sent to the wrong email

- address
- Unforeseen circumstances such as a fire or flood
- Hacking attack
- 'Blagging' offences where information is obtained by deceit from the school

The school will follow the following steps if a data security or potential data security breach occurs:

Detection

When a member of staff becomes aware that a breach or potential breach has occurred, they must notify the DPO as soon as possible.

Containment and recovery

- Establish who needs to be made aware of the breach and inform them of what they are expected to do to assist in the containment exercise
- Establish whether there is anything you can do to recover any losses and limit the damage the breach can cause.
- Where appropriate, inform the police
- Assess whether the breach should be reported to the ICO
- Notify the ICO within 72 hours of breach being detected if breach is identified as serious

Assessment of ongoing risk

The following points are also likely to be helpful in making this assessment:

- a. What type of data is involved – staff or pupil sensitive personal data
- b. Where personal data has been lost or stolen, are there any protections in place such as encryption?
- c. How many staff and/or pupil's personal data are affected by the breach?
- d. What harm can be done to these individuals – risks to physical safety, reputation etc.

Notification of breach

The DPO will arrange for those affected by the breach to be notified as soon as practically possible.

Evaluation and response

In the event of a breach, the DPO will complete an investigation as to the causes of the breach and also evaluate the effectiveness of the school's response to it. This will be reported to a Committee of the Governing Body and where necessary, the school will update its policies and procedures accordingly. The school will maintain a log of breaches, specifying the nature of the incident and the response taken.

It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

The Federation is required by law, to provide information about its pupils to the DFE as part of statutory data collections such as the Federation census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

Where a child does not have the maturity to make their own SAR for Personal Data (usually under the age of 12) or where the child has provided consent, parents may do so on their behalf in a primary school setting. Parents also have the right to make a SAR with respect to any Personal Data

the Federation holds about them. To make a request for your child's personal data, or be given access to your child's educational record, please contact the DPO or School Data Protection Lead although any written request for personal data will be treated as a SAR.

- Let you know whether any automated decision-making is being applied to the data and any consequences of this.

Give you a copy of the information in intelligible form.

As the Federation has limited staff resources outside of term time, we encourage parents / pupils to submit SAR during term time and to avoid sending a request during periods when the Federation is closed or is about to close for the holidays where possible.

Details about making a SAR can be found in section 9 of the Data Protection Policy.

The Federation keeps Personal Data about parents / carers in order to comply with its legal obligations. A significant amount of Personal Data is stored electronically, for example, on the Federation database. Some Personal Data may also be stored in hard copy format. Personal Data stored electronically may be saved on a cloud-based system which may be hosted in a different country, that is, within the EU border only (unless there is a legitimate reason to store the Personal Data outside of the EU or consent of the Data Subject has been obtained).

Personal Data may be transferred to other countries within the EU borders only (unless there is a legitimate reason to store the Personal Data outside of the EU or consent of the Data Subject has been obtained) if, for example, the Federation is arranging a school trip to a different country. Appropriate steps would be taken to keep the Personal Data secure. The Federation's Management and Retention of Records Policy sets out how long the Federation keeps information about its pupils and parents / carers. Copies of all policies can be found on the Federation website.

To determine the appropriate retention period for Personal Data, the Federation will consider the following:

- The amount, nature, and sensitivity of the Personal Data.
- The potential risk of harm from unauthorised use or disclosure of your Personal Data.
- The purposes for which the Federation process your Personal Data.
- Whether the Federation can achieve those purposes through other means.
- The applicable legal requirements

In some circumstances, the Federation may anonymise your Personal Data so that it can no longer be associated with you, in which case the Federation may use such information without further notice to you. Once you are no

longer a parent / carer of a child at the Federation, the Federation will retain and securely destroy your Personal Data in accordance with the Federation's Management and Retention of Records Policy or applicable laws and regulations.

10. SUBJECT ACCESS REQUESTS ("SAR")

Under the GDPR, parents / carers have the right to request access to information about them that the Federation holds.

To make a request for your Personal Data, please contact the Federation's Data Protection Lead although any written request for Personal Data will be treated as a SAR.

Information on SAR, is as follows:

- **Information required:** The Federation may need to request specific information from you to help the Federation confirm your identity and ensure your right to access the information (or to exercise any of your rights). This is another appropriate security measure to ensure that your Personal Data is not disclosed to any person who has no right to receive it. You also have the right to:
 - Object to processing of Personal Data that is likely to cause, or is causing, damage or distress.
 - Prevent processing for the purpose of direct marketing.
 - Object to decisions being taken by automated means;
 - In certain circumstances, have inaccurate Personal Data rectified, blocked, erased or destroyed.

- Claim compensation for damages caused by a breach of the Federation's data protection responsibilities.
- **Time to respond:** The Federation will respond to a SAR without undue delay and in any event within one (1) month of receipt of the request. The Federation may extend the deadline to respond to a SAR by up to two (2) months (so up to three (3) months in total) where the SAR is particularly complex or numerous and if this is the case the Federation will contact the requestor within one (1) month of making the request and inform he or she why such extension is necessary.
- **Charges:** The Federation will provide the information requested free of charge.
- **Excessive/unfounded Requests:** The Federation may charge a reasonable fee if the request for information is manifestly excessive or unfounded, particularly if the request is repetitive. The fee charged will be determined on the basis of the administrative costs of complying with the request and therefore the level of the fee will vary depending on the remit of the request and the administrative costs incurred. The Federation will need to provide evidence to the requestor on how the request for information is manifestly excessive or unfounded.
- **Unwarranted Requests:** The Federation may refuse to respond to unwarranted requests for information. The Federation will explain the reason of refusal to the requestor, inform the requestor of their right to complain to the supervisory authority and to a judicial remedy without undue delay and at least within a month.
- **Electronic requests:** The right to request information may be submitted electronically to the Federation using the SAR Pro Forma form, unless otherwise requested by the individual. Also, the requestor may make a SAR using any Facebook page or Twitter account that the Federation has, other social-media sites to which the Federation subscribes, or via third party websites. The Federation cannot insist on the use of a particular means of delivery for a SAR.
- **Term time applications for SAR:** As the Federation has limited staff resources outside of term time, the Federation encourage the submission of SAR during term time and to avoid sending a request during periods when the Federation is closed or is about to close for the holidays where possible. This will assist the Federation in responding to your request as promptly as possible.
- **Right to Withhold Personal Data:** The Federation has the right to withhold the disclosure of Personal Data upon a SAR if disclosure would adversely affect the rights and freedoms of others.

For further information about how we handle Subject Access Requests, please see the Federation's Data Protection Policy.

Once the DPO has received notification that you have withdrawn your consent, the Federation will no longer process your Personal Data for the purpose or purposes you originally agreed to, unless the Federation has another legitimate basis for doing so in law.
