

PHYSICS BEYOND KS3

Physics is a branch of science that studies matter and its motion as well as how it interacts with energy and forces. Physics studies the smallest elementary particles and atoms as well as the largest stars and the universe.

All the Physics topics you cover in KS3 will reappear in your GCSE's, so grasping these key concepts in year 7 and 8 will put you lightyears ahead of the competition.

GCSE Physics topics:

- Energy
- Particle model
- Electricity
- Forces
- Waves
- Magnetism
- Space
