

## Autumn 1 2019

Year 1 will be learning about themselves and the world around them through the theme

# Teddybear's Picnic

**As readers,** we will learn about the feelings associated with losing and finding something precious from **Where's My Teddy** by Jez Alborough.

**As writers,** we will learn to write invitations and order instructions for making a sandwich for a picnic.

**As mathematicians,** we will learn about counting to and from 50, place value and Geometry of 2D shapes.

**As scientists,** we will learn about Humans and Animals and investigate how our senses help us to explore and understand the world around us.

**As artists and designers,** we will design a class bear then explore what really goes in a sandwich and make our own sandwiches.

**As geographers,** we will explore the physical and human features of our local environment and compare with places further afield. We will also learn how to create a simple map.

**As computer scientists,** we will design invitations using **Word** to write lists and instructions.

**As musicians,** we will explore percussion instruments and learn songs to sing at a Music Festival at the Royal Festival Hall in October. More details to follow.

**As theologists,** we will look at Hinduism. We will be learning about the story behind the popular Festival of Diwali. We will create a display of the important objects used in Diwali and compare with festivals that are important to Christians.

**Koinonia Federation Year 1 Team**
