

What a Wonderful World!

Autumn 1 2019

Join Year 4, as we become avid explorers of the wonderful, ancient world of violent volcanoes, mighty mountains & earthquakes.

Volcano cross-section.

Volcanologist.

David A. Johnston.

Types of Volcano

As **readers**, we will explore and discuss the struggles of Varjak Paw as he overcomes his fears, learns the teachings of the Way and defeats the monsters Outside the city, in the self-titled book. Will he have the courage and mental strength to save his family?

As **writers**, we will be composing newspaper reports, becoming mini-researchers and putting together fact files across our English and Creative lessons.

As **mathematicians**, we will secure all 4 calculations, including the ability to reason and problem solve.

As **scientists**, we will be making careful observations from experiments, recording data, and drawing conclusions using scientific vocabulary.

Using our scientific knowledge, we will become **artists** to create an art piece relating to famous volcanoes around the world.

As **geographers**, we will carefully analyse the physical and natural features of volcanoes around the world. We will look at the devastating and lasting effects it has for those who live near it.

As **musicians**, we will be composing an Oscar winning theme to reflect the explosive sounds of an erupting volcano and the chaos it can bring to a quiet town like Pompeii.

As **theologists**, we will understand the significance of the 5 Pillars of Islam and how each are represented in the wonderful and diverse world we live in!
