

Spring 1 2020

## Mad Science!

*As readers* we will be sharing lots of information books about all sorts of Science topics and continue to use our phonics to improve our own reading.

*As writers* we will be writing up and recording our findings from our many Science investigations and demonstrations.

*As mathematicians* we will be doing lots of measuring and comparisons of weight, lengths and capacity.

*As scientists* we will be covering so many areas including floating and sinking, chemical reactions, growing, magnetism and dissolving.

*As artists and designers,* we will be using our scientific investigation to explore different artistic mediums, materials and textures.

*As musicians* we will be exploring sounds in nature and using objects and materials outside to create different noises.

*As theologians* we will be thinking about Our Wonderful World and New Life.
